EXPERTISE

HTML5 / CSS3 Responsive Design UI/UX Strategy JavaScript Basics Content Strategy

Professional Profile

Creative Web Developer dedicated to building high-performance, visually immersive digital experiences. Specializing in clean code and premium aesthetics for modern brands and independent creators.

Key Projects

Swift Shop

E-Commerce Solution

Designed and developed a responsive e-commerce platform focusing on streamlined user flow and high-end product presentation.

Ancient Knowledge Hub

Content Discovery Platform

Built a digital archive for ancient mysteries and historical research, integrating media-rich layouts and intuitive navigation.

Geypey Admin Dashboard

Full-Stack Design

Developed a responsive backend management interface featuring dynamic data tables, a CSS grid product catalog, interactive modals, and mobile-first navigation.

VibePress Entertainment

Frontend Development

Engineered a modern entertainment news platform with a dynamic dark/light mode toggle, cinematic UI elements, and complex CSS grid content layouts.

Background

Independent Frontend Developer

Focused on modern frontend architecture, CSS Grid/Flexbox, and performance optimization.

YouTube Creator

Lead strategist for "Myths and Mysteries," managing community growth and narrative scriptwriting.
